

Agustin Borio

Full Stack Developer

Argentina, Rafaela, Santa fe | +54 3492 677811 | aguborio18@gmail.com
www.linkedin.com/in/agustin-borio-29a0891b3 - <https://github.com/Aborio>

Full Stack Developer With background in business administration, finance, accounting that helped me to develop soft skills, such as teamwork and good communication, also helped me to have experience in working groups as a team leader. Specialized in Back End. Knowledge in agile methodologies, GIT, data structure, algorithms, CSS frameworks. Experience in development on both sides, both Front end and Back end which I have knowledge in HTML CSS, tailwind, ReactJS, NestJS, sequelize, Prisma, Express, PostgreSQL, MongoDB.

Full Stack Web Developer - E-Commerce Autoparts Oct. 2023 - Nov. 2023 Academic Experience. Henry Bootcamp

In this project we did together with a group of colleagues, we decided to make a work to facilitate the purchase of auto parts. It is a project that currently one of my colleagues is using for his own company, so we are very happy with the whole group, that our work is being used for a company.

Technologies used: Tailwind, Javascript, NestJS, Prisma, PostgreSQL, GitHub, Vercel

My functionalities in this project

Front: Registration functionalities, login, profile visualization (all with their connections to the BackEnd) Back: Small modifications for the visualizations in the Admin panel.
